FEATURED PROJECTS

Bazar Dor - Daily Commodity & Market Price Tracker — 2024

Tech Stack: *React.js, Tailwind CSS, JavaScript (ES6+), REST APIs, Vercel*
Live: bazar-dor-rosy.vercel.app | GitHub: github.com/ShuayebProgrammingLife/Bazar_Dor

- Architected a real-time localized commodity price tracking application to monitor daily grocery rates and market fluctuations across Bangladesh.
- Engineered responsive category filtering and instantaneous debounced search for hundreds of daily essential commodities with zero UI latency.
- Structured modular data models to calculate unit conversions and format pricing transparently in Bangladeshi Taka (BDT).

FitWebApp - Interactive Fitness & Workout Tracker — 2024

Tech Stack: *React.js, Tailwind CSS, Context API, JavaScript, Vercel*
Live: fit-web-app-one.vercel.app | GitHub: github.com/ShuayebProgrammingLife/FitWebApp

- Built an intuitive fitness companion platform empowering users to explore targeted workout splits and track exercise routines.
- Implemented persistent state management using React Context API to preserve user routines and active workout milestones across sessions.
- Designed an energetic, high-contrast dark-mode interface ensuring optimal readability on mobile screens during workouts.

Movie Explorer - Film Discovery & Ratings Platform — 2024

Tech Stack: *React.js, TMDB API, Tailwind CSS, JavaScript, Vercel*
Live: movieexplorer01.vercel.app | GitHub: github.com/ShuayebProgrammingLife/Movie_Explorer

- Engineered a dynamic cinema discovery web app integrating real-time entertainment APIs for movie ratings, trailers, and cast details.
- Implemented debounced search queries and category tabs (Action, Drama, Sci-Fi) to minimize API overhead and prevent rate limiting.
- Integrated YouTube trailer modal playback and responsive image backdrops with automated image fallback handling.
